

THE AVIATION SHOP

&

TAS HOBBIES

Aircraft * Trains * Ships * Cars

The [Aviation Shop](#) was established in 1990. It is a must for all hobbyists including aviation and aircraft nuts. The shop has a magnificent selection of aviation related models both plastic and die-cast, books, flight simulator products, videos and DVDs to cater for all your aviation hobby **and collectable product** related requirements. Essentially they supply **products that appeal to pilots and would-be pilots alike.**

They specialise in Mail Orders.

The shop has a wide selection for the Harvard enthusiast to choose from; quite frankly the selection of Harvard memorabilia is awesome. It is even possible to have a Harvard painted in the livery, colour scheme, of your choice.
